## Customer Reviews

This is a great read! I was drawn to it by the art work and beautiful writing. It has lots of great and fun ideas for tea parties. I love how it is not just recipes but also craft ideas for the parties. I would definitely be interested in purchasing her other book. Also, this is a wonderful coffee table kind of book. One look at it and you just can't help but to pick it up and read it from beginning to end.

Absolutely Love this Book!!!

A very CLEVER book, nicely printed. But I only saw 2 recipes I would even try. Most recipes were for "High" Tea, which is more like supper than the tea party i think most Americans expect. And it seemed the biggest chapter was a children's tea., with recipes not suitable for any other party. And pages devoted to creating elaborate hairdos seemed out of place. I just found it disappointing.

This is a wonderfully elegant book filled with ideas for intricate foods, lovely hairstyles, and unique

decor for the ultimate tea party on any occasion. I would recommend this book to anyone interested in party planning, tea time, food, or a knack for the quirky things in life. Some of the tea party themes include: Bachalorette Party, Valentines Tea, Bridal Tea, Tea Time for kids, Tea Time for Pre-Teens, and much more. I will definitely be ordering her original "The Vintage Tea Party" book next.

Arrived with the cover dented, but this book is fantastic. I love the art style and the recipes are delightful! I recently made the asparagus cigars and the sausage puff pastry. It was delicious and unique!

I loved Ms. Adoree's Vintage Tea Party book and this is a wonderful companion to that. Even if I never ever make anything in the book, the utterly charming format and illustrations are more than worth the price. It's a gorgeous book.

This is the second title we have by this author. Just like the other book, The Vintage Tea Party, this is beautifully illustrated and has great photographs. It is an excellent resource to have as my teen daughter plans regular parties for her friends.

Those reviewers who were disappointed in this book did not realize that Angel Adorre has created a brand and business that has precious little to do with the traditional, classic tea party. Her book is filled with crafts, recipes and hair styles (Yes, that's what I wrote -- hair styles) with a distinctive British/vintage flair! Use the photographs, illustrations and text to develop your own individual style -- which will lead to your own enchanting parties and celebrations. What about entertaining at an afternoon mah jong party-- serving simple coconut ice squares (page 77) while sporting a sequin snood (page 296)? Your centerpiece could be waxed flowers (page 140). I'm dead chuffed just thinking about it.

Just like the last Vintage Tea Party book, worth it for the coffee table appeal alone. Trying not to be daunted by the recipes, having a blast playing with the recipes, doing my hair and arranging a baby tea! Amazing book.
