Customer Reviews

This book is full of practice questions. But, the book does nothing to prepare you to answer them.

The barrons book has about 20 pages of information about each topic (supervision, patrol, community policing etc) and then asks questions based on what you read. This book skips the information and jumps right to the questions. Not recommended for learning. The barrons book helps is much better at helping you learn and retain information.

I took 2 promotional exams in California (for corporal and sergeant) and this proved to be a very valuable resource. The questions were very similar to what was actually on the test. I think this book played a huge role in my promotion to corporal.

This book has a lot of good questions, but the Barron's 4th Edition has much better reading and explanations.

it was full of good info about the exams. the book had lots of test questions that might be seen on the exam. not taken exam yet so don't really know how well it helped

I purchased this for my husband and it turned out to be of great help to him in preparing for the sergeant's exam!

Practice exams were nothing like the test issued by my department.

Overall good read. Pace yourself.

Good source of general info
