I was very satisfied with my purchase of this book. It was all I wanted it to be and even more and I have already made five or more of the projects in it and I have a feeling there will be very few in this book that I do not make as it has very good patterns and I couldn't be happier with the value I got on this book.\

Lots of great plastic canvas ideas. The book came quickly and was in perfect condition. Love this book. Hope to get more.

This would be good for a someone who is just learning plastic canvas; most patterns are very simple. However, they may be too simple for one more experienced with plastic canvas.

it has more than i anticipated for content and the ease of diagrams and direction have made this one of the best

This is a great pattern book. It has so many nice patterns that I don't know which one to make first.
