Manual N – Commercial Load Calculation

Synopsis

The new fifth edition of Manual N, from the Air Conditioning Contractors of America (ACCA), details the correct HVAC load calculation procedure for small and mid-size commercial buildings. This new edition addresses advances in the commercial construction industry, such as new materials, methods of assembly, and operational requirements. It provides instruction to help contractors and designers satisfy new (and often conflicting) energy, ventilation, and comfort requirements. Manual N is divided into four sections providing both a quick procedure, and a more comprehensive procedure, based on the requirements of your application.

Customer Reviews

Very good manual for commercial load calculations. I can't wait for NC to switch to the new addition.

My son claims this is the best book on the topic. Was the best gift i ever gave him!!! Hooray!

I ordered several used books from for my son who will be going for his state contractor's license. All books were reasonably priced, and shipped and received when promised. I have placed numerous orders through and never had a problem. Great customer service!
