Not worth purchase price. Someone should have proof read this book (and I use the would lightly). Recipes are poorly written, detail was not taken into account, there were a couple recipes that the reader would have to guess as to what the author was talking about. I don't know how this book was published.

Although this book shows a picture of a rectangle Smoker, it never mentions this specific Smoker. Like how when to add wood or water or even how to start a Masterbuilt Smoker. And 'cook until tender" is lame .

I purchased this book along with a smoker for my husbands birthday. He loved it! This is an

excellent introduction to smoking and has some great tips and tricks. We tried the Hickory Bourbon Spareribs are they are delish! Great read!

The recipes for the masterbilt smoker are ok but nothing to do with masterbilt electric smoker

Very poorly written, it could have used an editor. Recipes and directions were incomplete and confusing.

Great book. Makes smoking so easy. The recipes are delish.

I kind of expected more, the recipes are rather vague.
