Customer Reviews

I bought this book as a gift for my mother after following PlainChicken.com Stephanie Parker's blog and trying out many of the recipes. I love, love, love these recipes. Most are easily made with handy ingredients and still have the homemade quality of your grandmom's cooking. I make the ham and bean crock pot recipe about once a month because we love it and many of these recipes have made their way into my regular work-week rotation. My mother will flip over this book as she would rather have a cookbook in front of her than a computer and hears me rave about PlainChicken.com all the time. And did I say easy recipes? I don't usually enjoy cooking, so I used to use every excuse to get out of it, but most of these recipes are so easy that even I can do it. GREAT RECIPES!Edit 1/9/13 My mom LOVES it and has already made two recipes and they were both delicious. Her only complaint is the print is small.

there are so many delicious and makes sense recipes on the blog that I felt sure this would be a great book to order for my family members but was disappointed when it arrived only to see which recipes were included in the book. Stephanie's creativity is much better than what the book contains.

I love ALL of the recipes that Stephanie shares on her website, so I couldn't wait to get this book when I saw it. I was NOT disappointed! Every single recipe has flavor and is easy to prepare. I'd give it 10 stars if I could!

I was really excited for this cookbook as I adore her blog. I've made a lot of great recipes for it and I hoped this would be a great companion to the blog. Unfortunately this isn't nearly as wonderful as her blog. The recipes are very basic- while I love that style of recipe these take it to a new level. Like the biscuit waffles. You know this recipe if you've been on Pinterest for a hot minute: toss a canned biscuit on a waffle iron. I know the title of this book leads one to believe these are simple recipes but this is REALLY basic stuff. This book also looks very cheaply made. Which is fine for a novel but this style of book is a complete pain in the arse when you try to use it for cooking. I actually bought this intending to gift it but it's a bit too hokey looking for a gift. Her blog is full of yummy recipes and delicious food (Chicken Lazone my current favorite of hers). Maybe she will come out with a better book down the line but as for now you are best to save your pennies for a better cookbook and make use of her blog.

Neat cookbook with great recipes from Stephanie Parker. I love how she add photos of her beloved cats throughout the cookbook!! Subscribe to her blog and you too will get to see her kitties on "Meow Mondays"!!

I was somewhat disappointed - I receive her email newsletter almost daily and was surprised her cookbook was not bigger for the price - but I am sure I will use some of her recipes as I already do - so far not disappointed in the recipes.

What did I get? Was it an accident during printing? Was it something not listed? I expected 50 popular recipes from Stephanie Parker at plainchicken.com and those I got. I also rec'd 100+ pages of historical spanish history or something (printed upside down)???? Maybe I missed something when I ordered. Book (minus a few recipes is already in the garbage). Not worth my time to return and maybe my ordering mistake (doubt it).

Not as impressed with the cookbook compared to here website. There were better recipes to put in this cookbook from the blog than many that were in it! And for 50 recipes it is pretty expensive for this book (the style is VERY easy to follow, almost looks like a elementary school student made the

book). Very low budget style book. Was hoping for more from this because of her blog :(LOVE THE BLOG THOUGH, check it out!
