Spon's External Works And Landscape Price Book 2014

Synopsis

This year's book has a heavily enhanced approximate estimates section, with most measured works items being also presented as composite items. Now in its 33rd edition, Spon's External Works and Landscape Price Book 2014 offers the only comprehensive source of information for detailed external works and landscape costs. It covers all the items to be found in hard and soft landscape contracts, and forms an indispensable reference book for quantity surveyors, landscape architects, contractors and local authority managers – an essential for compiling estimates, specifications, bills of quantities and works schedules – no matter what the size of the project being undertaken. Use the access code inside the back cover of the book to get set up with internet access to this 2014 edition until the end of December 2014. We now provide Spon's Online, a versatile and powerful online data viewing package, which replaces the estimating software and ebook of recent years. The book now uses a combination of NRM1 and SMM7 as the measurement standards. This edition includes the following significantly developed items: Wildflower meadows – reflecting current trends; Urban and Street tree planting systems; Sudscape Porous paving systems; Maintenance operations for long term cyclic maintenance contractors. All the standard features that you expect from SPON'S EXTERNAL WORKS AND LANDSCAPE PRICE BOOK remain: Material and measured work prices covering contract items from preliminaries and site clearance and encompassing the core external works activities with full breakdowns into labour, materials and other components; Detailed guidance on wage rates, landscape consultants' fee scales; An extensive Approximate Estimates section for rapid spot estimating; Updated, free of charge, two or three times a year – see inside for registration details. Updates are available online at www.pricebooks.co.uk.
