Matt Kramer's Making Sense Of Italian Wine

Synopsis

Matt Kramer, longtime Wine Spectator columnist and author of the classic Making Sense series of wine books, now turns his palate toward Italy. Though Italian wine is the most popular wine among consumers, it remains puzzling to most wine lovers who wouldn't know a Barolo from a Barbaresco. Though shrouded in mystery, Italian wine has some of the most exciting and affordable varieties being produced today. Kramer is a trusted companion in the wine store, telling his readers the essentials: which wines can't be missed, and which are safe to skip. Organized like a "Shopper's Guide," this unique book offers the lowdown on the most dazzling wines in every price range-their regions, traditions, and which foods to match with them. With Kramer's trademark wit and intelligence, here is an invaluable tool to finding treasures in the local wine shop.

Book Information

Hardcover: 288 pages

Publisher: Running Press (October 3, 2006)

Language: English

ISBN-10: 0762422300

ISBN-13: 978-0762422302

Product Dimensions: 9.1 x 6.3 x 1 inches

Shipping Weight: 1.1 pounds

Average Customer Review: 3.9 out of 5 stars [See all reviews](#) (8 customer reviews)

Customer Reviews

This is the most recent addition to Matt Kramer's "Making Sense" series of wine books. If you've read any of the others, you know that the dumbed-down "Making Sense" tag is a bit of a misnomer. The original Making Sense of Wine is one of the most intellectual wine books ever written, with thoughtful chapters on the nature of connoisseurship, the importance of typicity of place, and wine's changing role at the dinner table throughout history. And then there is Kramer's rare, inexplicably out-of-print Making Sense of Burgundy, which costs north of \$100 if you can find it... rather like a prized Burgundy itself. For better or worse, Making Sense of Italian Wine doesn't continue this deceptive labeling. It's organized like a buyer's guide for beginners and indeed Kramer states flatly

in the introduction: "This book is not intended for wine lovers who are already deeply knowledgeable about Italian wines.... Instead, this book is for relative newcomers to Italian wines. It's for everyone who has enjoyed a bottle recommended to them in an Italian restaurant and would like a little guidance about how to go about having another such delicious experience."The majority of the book consists of overviews of about 40 different types of Italian wine, broken down, for each category, into a brief history, a list of recommended producers, an overview of the cuisine typically served with the wines in Italy, various vital stats, and references to similar wine types. The culinary descriptions are particularly refreshing because they don't degenerate into any of the customary voodoo about what micro-elements in the wine and food "pair" with each other in whatever barely noticeable ways.
