While I don't have a NutriBullet, my husband and I do have a Ninja, and I think we'll still be able to enjoy many of these recipes. I really liked the how simple these recipes are. They're not long and drawn out processes to prepare. The format is easy to read and the recipes are organized well. I'm a little unsure about the cool soups as I've never had one and the concept is a little strange to me. However, I know that they are popular, so we may have to try them. I do wish that a few of them were a little more, comfort food-ish. The majority of these are healthy food soups (not all, but a lot). So there were a lot of recipes that called for kale, which is one of my least favorite types of leafy green. My favorite recipes were the dips and sauces at the back. I'm anxious to try the pasta sauce recipes as well as the salsa. I love making our own as opposed to store bought and am always looking for new ideas. Overall a great recipe book!

I love making homemade soups and these recipes look wonderful! I like how they include both the preparation time and the cooking time so I can plan ahead, and the nutritional information is also very helpful if you're watching your diet like I am. There's recipes for every season, from thick and creamy warm soups to cooling soups perfect for warmer weather. I can't wait to try the cucumber, yogurt and pistachio soup, looks yummy! Great recipe collection, well organized and perfectly laid out!

This is a delicious collection of soups that has really impressed me. It offers soups for different occasions and has really allowed me to understand what it is that makes a soup good. My favorite are creamy soups and the recipes for that are really mouth watering. My friends were impressed as well. Glad I could upgrade my soup skills so quick, highly recommended.

Everything was great.

Good soup recipies.

Delicious soups! That's the best way to describe these recipes. Healthy. That's just a bonus.

I bought a NutriBullet a while ago but I haven't gotten much use from it. I decided that I would look into what I could use it for as I had been told there were a lot of different things you could make and I came across this book. The book has an excellent collection of delicious and easy to make soups and dips. I have tried a number of the soups now and every one was delicious. I recently had a little

get together at my house and decided to make a few of the dips all of which were a big hit. The book is very well laid out and contains something for everyone. There is a great and varied selection of soups and dips to suit pretty much every taste. A brilliant recipe book that I highly recommend for any NutriBullet owner.

I returned this book. It did not satisfy any of my taste buds.
