Customer Reviews

Absolutely wonderful. The authors really know their stuff. There isn't a more complete Beanie Anthology available anywhere! A perfect companion to my book.

This is still a very useful reference book for identifying Beanie Babies and for identifying fake beanie babies as well. The price references are very outdated, which is to be expected considering when it was published. But, as a reference and identification book, it is still worth the price being asked for the book.

Great book if your just getting started or are a serious collector. I am a serious collector and there were many things I didn't know that I found in the book. All my family members have books and they think it's great.Applies to kids and adults.Everywhere I go I see people buying it .

We found this book to be excellent for the beginner Beanie collector as well as the experienced.

Photographs are bright and cheery. This book has tons of Beanie information and is easy to understand. A GREAT find for anyone that likes Beanie Babies.

This book is excellent for your first time collectors of beanie babies. Don't get scammed, know your beanie! As an experienced Beanie collector, this book will even teach you something new about Beanies too!

A must for all Beanie baby collectors. The book is beautifully illustrated with all the older model of Beanies. Rare finds.
