Self-Striping Yarn Studio: Sweaters, Scarves, And Hats Designed For Self-Striping Yarn

Synopsis

Self-stripping yarn is increasingly popular with crafters, but many knitters lack the knowledge to work with the yarn effectively. Carol Sulcoski's latest book begins with a comprehensive technical section that explains how to use and manipulate self-stripping yarn—something no previous pattern collection has offered. After reading the accessible instructions and tips, knitters will be inspired to cast on one of 24 new and original designs—11 beginner, 11 intermediate, and two advanced—including shawls, scarves, sweaters, fingerless mittens, and more. Featured designers include Fiona Ellis, Brooke Nico, Sandi Rosner, Cornelia Tuttle Hamilton and more. Part of Lark's Yarn Studio series, which includes Sock Yarn Studio and Lace Yarn Studio.

Book Information

Series: Yarn Studio

Customer Reviews

This book by the wonderful author Carol J. Sulcoski, is a part of her Yarn Studio series of books, preceded by Sock Yarn Studio and Lace Yarn Studio. As it states on the back, the "Yarn Studio series...selects a category of yarn that's often misunderstood and provides clear and accessible technical instruction for using the yarn accompanied by more than 20 creative patterns." In this, her latest book in the series, the reader will learn through the "extensive technical section how to use and manipulate self-stripping yarn, gradients, and ply-shifters through detailed knitting illustrations and instructions, photographs of sample swatches, and example color charts—something no previous pattern collection has offered." After learning the instructions and tips, the reader will look forward to trying one of the 25 new designs, 11 of which are easy, 12 intermediate, and 2 experienced. The knitter is offered patterns for shawls, scarves, sweaters, fingerless mittens, and more. Contributors

include Marlaina "Marly" Bird, Barb Brown, Fiona Ellis, Erika Flory, Amy Gunderson, Cornelia Tuttle Hamilton, Patty Lyons, Elizabeth Morrison, Brooke D. Nico, Sandi Rosner, and Andi Smith as well as the author herself. This brilliant book begins with lessons by the author on how to understand self-stripping yarn. This is titled "all about self-stripping yarn". It contains explanations of yarns which have different lengths of color in them and what to expect from them, and it discusses true strippers versus gradients. It explains ply-shifters and has a section on troubleshooting. It discusses felted joins, which are useful for animal fibers, and has a section called "The Case of the Backward Skein".
