# Adobe Dreamweaver CS5 Illustrated (Illustrated Series: Adobe Creative Suite)

Synopsis

Teaching your students has never been easier than with ADOBE DREAMWEAVER CS5 ILLUSTRATED. This reader-friendly book presents each skill on two facing pages, providing detailed instructions on the left-hand page and large, full-color screenshots on the right page. The visual format helps students intuitively grasp the concepts in the book and apply them to the classroom and workplace environment.

Customer Reviews

Setting up a website is simple with this book. It is a literal step by step outline of everything anyone needs to know...as long as you are using the adobe dreamweaver program. Just keep in mind the software is not free, but adobe does offer a free 30 day trail. If you get the trial though, you will probably need this book, unless you know what you are doing.

When dealing with tutorials, particularly tutorials on computer subjects, my biggest fear is that things will not work in ￢ￂ ￢œreal life￢ￂ ￢• as described in the book. I have completed enough of them to be fairly vigilant at following instructions and knowing how to backtrack to find the problem.With this book, that sometimes worked but, more often, it did not.That￢ￂ ￢™s a shame. The text of the explanations was well written and, as far as I could tell, the process of tuition was well thought out. That is cold comfort for the person who is trying to master the application.Finally, I decided to stop

wasting my time and pick another tutorial. That will be my third for this application. The first one worked well but did not get into everything I needed to know. This one may have at some point but I feel I am spinning my wheels.

I had no idea of how to build a Web site.This book give me the power to Excell in this area

This was a classroom text. I was glad to find a used copy. Thank you for this opportunity. I will use this venue for other purchases if and when necessary.

Great book full of insightful and descriptive information you'd have a hard time getting the information by yourself. Overall great book.

Good book, but very Basic! Very expensive also.Buy is used if possible.Good Luck; something else may be better.

It was the right price, the right book, and it came right on time. Book arrived in perfect condition. I saved money and I didn't have to feed a parking meter to stand in a 2 hour line at the student bookstore.
