Hate it. I ordered this book a month before my class started so I would be fully prepared. On the first day of class, I found out by my professor that the loose-leaf version of this book is missing over 200 pages that are included in the hard cover. Nowhere was this disclosed in the book description on either the front or back covers. I do not fault the seller as he/she may not have realized there was a difference but I do fault the publisher for not making it very clear that this was a condensed version of the hard cover.

This is a great international marketing textbook that has many real world examples, and makes the

reading very interesting. There is a lot I learned from this text book. The book also has an online features that has quizzes and exercises that help a lot with learning the material, but the online portion cost extra.

This is exactly what I needed. The book is in great condition and there is not any damage. I also like that it is loose leaf so I can remove and add pages as necessary to decrease the weight of my backpack.

Purchased book for my online masters course. Its ok. Must purchase a binder since its loose-leaf like notebook paper. Strange they thought this was the best economical way to produce the book, but no complaints. It served its purpose and its a great marketing book.

Extremely expensive text book, definitely not worth purchasing if your professor does not give assignments. If you have library access I'd use it there.

The text offered a comprehensive scope of international marketing strategies and case studies. As a text rental, however, I wasn't pleased with the condition of the book; there was too much highlighting and margin notes.

Hey this book is cutting edge and has tons of marketing information. It also has access to a large online library that has tons of movies and demos to help you learn far more than just what is in the book. I will not be selling this book back, it is a keeper.

Good day & thank you for getting the book to me in a timely manner...I truly was pleased with the fast service and the condition of the book.Great product and I got an A in the class.Keep up the good work.Best, Matt
